PROFESSIONAL PROFILE

Computer Systems Engineering student with solid full-stack development skills and a strong interest in system automation and cybersecurity. Great team player with a focus on problem-solving and self-learning to build practical, secure, and innovative technological solutions.

EDUCATION

B.S. in Computer Systems Engineering Escuela Superior de Cómputo (ESCOM) – IPN 8th semester	2022 – 2027
Digital Systems Technician CECyT No. 3 "Estanislao Ramírez Ruiz" – IPN	2019 – 2021

LICENSES & CERTIFICATIONS

Google Cloud Cybersecurity Certificate Google	Issued: Aug. 2025
Google Cloud Computing Foundations Certificate Google	Issued: Jul. 2025

SKILLS

Programming Languages: C, C++, Java, JavaScript, Python, Dart.
Web Development: HTML, CSS, React, Node.js, Spring Boot.
Databases: MySQL, PostgreSQL, Supabase.
Frameworks & Tools: Django, Flutter, Docker.
Cybersecurity & Architecture: System protection, secure authentication, BLoC Pattern.
Methodologies: Agile (Scrum).
Languages: English (Intermediate-Advanced), Spanish (Native).

PROJECTS

Full-Stack Cafeteria Management Platform
Built a web application for cafeteria management using React (Vite) for the frontend and Java Spring Boot for the backend. Used Docker to containerize the application and managed a relational database to track orders and products efficiently.

Mobile Exam Management App (ETS)
Created a cross-platform mobile app using Flutter and Dart, implementing the BLoC pattern for state management. Integrated Supabase for secure login, role-based access control (Admin/User), and automatic PDF report generation.

Book Search and Recommendation API
Developed a backend API with Django and a mobile interface with Flutter to search, filter, and recommend books from a database.

Java Compiler (Lexical & Syntactic Analyzer)
Built a basic compiler in Java capable of reading, recognizing, and validating expressions and structures of a custom programming language.
